ABOUT US

Silverstone Ventures Business Limited is a dynamic, Kenya-registered enterprise dedicated to sustainable development across forestry, sawmilling, construction, and agricultural exports. Since our establishment in 2018, we have built a reputation for integrity, reliability, and innovation in managing natural and physical resources responsibly.

We pair environmental stewardship with economic growth, serving both local and international markets through a commitment to quality products and eco-friendly solutions.

VISION

To be a leading regional enterprise recognized for excellence in sustainable forestry, quality construction, and fresh agricultural exports.

MISSION

To deliver world-class forestry, timber, construction, and agricultural products while promoting sustainable practices that protect the environment and improve livelihoods.

CORE VALUES

Sustainability: Protecting and replenishing natural resources through reforestation and environmentally sound operations.

- Integrity: Conducting all activities transparently and ethically.
- Quality: Maintaining high standards in production, export, and service delivery.
- Innovation: Constantly improving processes and adopting modern technologies.
- Community Impact: Creating jobs, supporting local farmers, and uplifting communities.

OUR MAIN BUSINESS DIVISIONS

Forestry & Tree Nurseries

We manage sustainable forestry projects and operate tree nurseries that supply high-quality seedlings for commercial plantations, landscaping, and environmental restoration. Our reforestation initiatives ensure long-term ecological balance and resource regeneration.

Sawmilling

Our sawmilling operations transform sustainably sourced logs into precision-cut timber products for domestic and export markets. Using modern machinery, we minimize waste and maximize efficiency to produce superior lumber suitable for construction and furniture manufacturing.

Construction

Silverstone Ventures Business Limited undertakes construction projects that combine structural strength with aesthetic appeal. Our expertise spans residential, commercial, and industrial developments, focusing on sustainable and affordable building practices.

Fresh Fruit Exports

We export premium fresh fruits — notably avocados and mangoes — sourced from trusted farms in Kenya’s fertile highlands. Through strict quality control and export compliance, we deliver produce that meets international standards for freshness and flavor.

Sustainability Commitment

Environmental responsibility is central to all our operations. We replant trees after harvest, encourage organic farming among partner growers, and implement energy-efficient

technologies in our sawmilling and construction processes. Our long-term objective is to balance profitability with the preservation of biodiversity for future generations.

Corporate Information

Company Name: Silverstone Ventures Business Limited

Registered Office:

P.O. Box 11527, Limuru

County: Kiambu

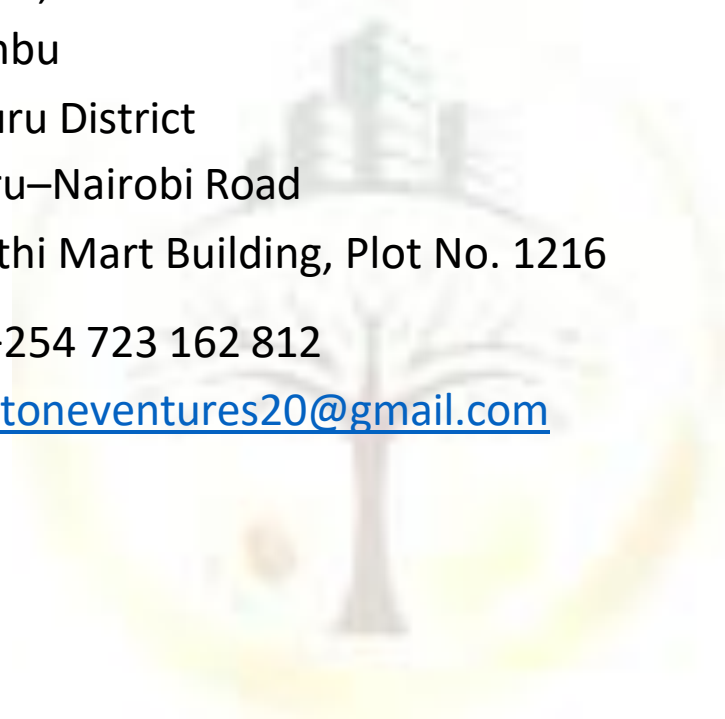

District: Limuru District

Street: Limuru–Nairobi Road

Building: Giathi Mart Building, Plot No. 1216
